D.A.V. PUBLIC SCHOOL, VELACHERY, CHENNAI

REPORT ON STUDENT WORKSHOP FOR CYBER SECURITY WORKSHOP BY LEGAL AND CLINIC

Date of Programme : 12.10.2026

Conducted by : Legal Aid Clinic of Dr. Ambedkar Law College and University, Perungudi

Students of Class : Std. XI & XII

Venue : Third Floor Conference Hall

Introduction:

A Legal Awareness Session on Cyber Bullying was conducted by the Final Year Law students and two Professors from the Legal Aid Clinic of Dr. Ambedkar Law College and University, Perungudi for the students of Std. XI and XII. Through an engaging drama and interactive presentation, the student facilitators vividly portrayed how common online actions can escalate into cyber bullying and discussed critical issues like cyber stalking, phishing, identity theft, online impersonation via fake accounts, harassment, and the unauthorized sharing of private photos or information, effectively highlighting the real-world dangers students face online.

The presentation clearly outlined the legal framework and real consequences tied to digital misconduct. The facilitators explained key provisions under the Information Technology Act, 2000, and the Bharatiya Nyaya Sanhita (BNS), 2023, addressing offenses such as online stalking and cheating by personation. Importantly, they emphasized that being under 18 does not grant immunity from legal repercussions, even if minor-specific procedures apply. The drama performance clearly demonstrated how seemingly harmless online habits-like participating in inappropriate group chats, forwarding offensive messages, or accepting unknown friend requests can severely harm an individual's reputation, privacy, and mental well-being while leading to formal legal action.

The Session drove home the importance of practicing responsible digital behaviour and protecting an individual’s online footprint, understand the significance of safeguarding passwords, necessity to double-check account authenticity, avoid suspicious links, and respect others' privacy. The facilitation also reiterated that the correct path to cyber Safety was reporting fake accounts, cyber bullying, or threatening messages to trusted adults and authorities.

This awareness programme stressed that legal rights come with personal responsibility, empowering us to navigate the digital world safely, ethically, and confidently while standing up against online harassment.
