REPORT ON THE FIELD TRIP TO PALLIKARANAI MARSHLAND AND ECO PARK 2024 -25

DATE: 30.01.2025

STD: III

TIMING: 10.00 A.M. TO 12.00 P.M.

A visit to Pallikaranai Marshland Eco Park was organized for students of Std III, accompanied by their teachers and Supervisory Heads.

This nature-rich park, celebrated for its Ecological Significance, offered a hands-on learning opportunity about Biodiversity and Conservation.

As they explored, students were mesmerized by the lush greenery, including towering Banyan trees, sacred Peepal, and the medicinal Neem tree.

The presence of Almond and Fig trees enriched the natural surroundings, while the delicate Star Jasmine vines wove intricate patterns and the ornamental Bougainvillea plant adding charm to the landscape.

Students were in awe as they watched pelicans gliding across the water, cranes wading gracefully, and bees hovering over blossoms, igniting conversations about the crucial role of wetlands in supporting bird and insect populations.

A guided nature trek shed light on the significance of marshlands as thriving ecosystems that sustain countless species.

Students keenly observed the information boards, displaying details of metamorphosis of frogs, tracing their journey from tiny tadpoles to fully developed adults. They also examined displays of various vertebrates and invertebrates, deepening their understanding of ecosystem dynamics.

The Field trip to Pallikaranai Marshland Eco Park proved to be an enriching experience, fostering a newfound appreciation for nature. It emphasised the urgent need for conservation and the responsibility of preserving natural habitats for future generations.
