REPORT ON COMPREHENSIVE EYE SCREENING CAMP

Organized by : Lawrence & Mayo
Venue : D.A.V. Public School, Velachery
Date : 05.08.2026 to 07.08.2026
Participants : Std. VI to XII and Teaching and Non- Teaching

An Eye Screening Camp was conducted at D.A.V. Public School, Velachery, in association with Lawrence & Mayo, from 05.08.2026 to 07.08.2026 for the students of Classes VI to XII and the school staff.

Day 1 (05.08.2026) - The Camp commenced with a 'Myopia Awareness Workshop' and Interactive Session for students from Classes VI to XII. The Session was conducted for 30 minutes which focused on creating awareness among students about myopia, eye health, and the importance of regular eye check-ups.

Following the Awareness Session, the eye screening process was carried out for the students. During the screening, students were asked to read a printed eye chart containing letters of different sizes. Each eye was tested separately by asking the student to cover one eye while reading the chart with the other eye. This helped in identifying students who may require further eye examination. Pamphlets on Myopia, Symptoms, prevention, and Management were distributed.

Eye screening was also conducted for the Teaching and Non- Teaching staff. The staff members underwent an initial machine-based eye examination, followed by a vision test using appropriate lenses. They were asked to read the eye chart to assess their vision and determine whether corrective lenses were required.

Staff members who required spectacles were informed about their requirements and were provided with details regarding the spectacles/lenses available for purchase.

The Eye Screening Camp was conducted successfully over the three days, providing students and staff with an opportunity to undergo basic vision screening and receive awareness regarding the importance of maintaining good eye health.

Eye Screening Camp by Lawrence & Mayo for Std. VI to Std. XII
